# Life & Annuity Financial Messages
## 118 Invoice Administration

## Function

- Used to submit and administer an Invoice with the ability to perform the following subtransactions:
  - **11800 Submit Generic Invoice**: Used to submit a generic invoice, more specifics are not known.
  - **11801 Submit Initial Invoice**: Used to submit an initial invoice. When an initial invoice is submitted, it is expected that it will contain no BillingDetail objects with BillingType set to 13 (Rebilled Line Item).
  - **11802 Submit Rebill Invoice**: Used to submit a rebill invoice for previously denied charges. When a rebill invoice is submitted, it is expected that it will contain no BillingDetail objects with BillingType set to 12 (Initial Line Item).
  - **11803 Submit Duplicate Initial Invoice**: Used to submit an exact duplicate of an initial invoice.
  - **11804 Submit Duplicate Rebill Invoice**: Used to submit an exact duplicate of a rebill for previously denied charges.
  - **11805 Cancel Invoice Submission**: Used to cancel a previously submitted invoice.

## Benefits

- Standard Data Exchange
- Agreement on Common Structures:
  - Vocabulary (Life Data Dictionary)
  - Structure (Life Object Model)
  - Support unique requirements in standard way
  - Eliminate custom data feeds
- Model-Driven Architecture
  - Provides common architecture to all messages
  - Encourages reusable components
  - Results in reusable code and development

## Additional Information

- A primary use case for the invoicing transactions is the automation of invoicing for services related to underwriting requirements.
- 118 is supported by the ACORD LAH Automated Vendor Invoicing (AVI) Implementation Guide.

## Related Messages

- **1119 Invoice Status Transmittal:** Used to transmit the status of an invoice.
