

Maximum benefits through usage of all message types!

Success

Consistent claim reporting across layers, thanks to Claim Movement Messages

In Aon Re Solution's case study, Tom Neff reports on the 50% improved turnaround time for Aon entities using the full message suite. The linked claims and accounting messages are key to success. The number of queries from B2B business partners reduces dramatically if claims reporting for reserves and claims movements, follows the Ruschlikon/ACORD supported claim movement message principles.

Whilst receiving companies can benefit from being able to successfully tap into the potential of automated claim creation and booking across layers, Aon has rolled out standardized processes and established transparent and consistent audit trails. With this, reconciliation work can be minimized and client services have improved. Ceding companies benefit from speedy cash management and early query handling.

For more information, please check out the full document stored on the Ruschlikon website [Case Study Aon Reinsurance Solutions - ECOT Usage](#) or reach out to Tom who summarizes the Aon Re Solutions success story as follows “improved turnaround time and service to our clients are the key successes achieved from implementing Ruschlikon Claim Movement messages along with all other message types”.

Tom Neff, Aon Re Solutions, Member of Ruschlikon eAccounting & Claims SteerCo, Chair of the Ruschlikon Business Implementation Group (BIG) and Co-Chair of Regional Implementation Group North America (RNAIG)
