

Lockton Re joins Ruschlikon ePlacing Steering committee

On a personal note

Get to know Chris Parish who represents Lockton Re on the ePlacing community

Chris Parish joined the Ruschlikon ePlacing Steering Committee in June 2024 and is looking forward to working alongside the other members to support the definition of the global digital placing standard and encourage its usage across the (re)insurance industry.

With over twenty-five years of experience in both broking and carrier roles, across different lines of business and geographies, he will leverage his knowledge for the benefit of the community. Lockton Re is keen to gain firsthand experience with testing the ACORD GRLC ePlacing Standard 1.3 in production. This will help designing and refining the implementation guidance.

Chris says *"the (Re)insurance industry has a pressing need for more digital workflow on the ePlacing side to unlock the potential for better risk analysis and portfolio management across the industry. Due to Lockton Re's investments in technology and analytics, the company has the capability to be a leader and early implementer of the Ruschlikon ePlacing data and process standards. It will benefit our clients as we focus on delivering an excellent digital experience"*.

Chris Parish, Market Innovation Leader, Ruschlikon ePlacing SteerCo member
