

RNAIG Educational Sessions

Status Update

Building a stronger community through knowledge sharing

The second module in a series of 5 Ruschlikon North America Implementation Group (RNAIG) training modules was held on the 10th of November.

This built on the foundation from Module 1, which covered case studies of the benefits the sender and receiver achieve from implementing all Ruschlikon ACORD message types. Module 2 focused on the Implementation Roadmap and walked the attendees through how they can maximise the benefits of implementation through establishing solid project plans, accessing members from the [Ruschlikon Adoption Directory \(RAD\)](#) and leveraging the wide array of material available on the Ruschlikon site.
