

## SCOR announces change in SteerCo representation

On a personal note

### Jonathan Beerman handing over to Özhan Türkes for SteerCo ePlacing and eAccounting & Claims

In Summer 2022, Jonathan Beerman handed over his role as the SCOR representative in the eA&C / ePlacing Steering Committees to Özhan Türkes, Global Head of E-Processing Management at SCOR.

During a trip to Zurich in July 2022, Jonathan formally handed over his tasks to Özhan over a pint of beer.

Since May 2019, Jonathan worked with the SteerCo members on further standardisation of the Accounting & Claims data and process and helped define the Ruschlikon ePlacing requirements by contributing the SCOR opinion and experiences.

*“Working with ACORD and Ruschlikon to continue to advance the industry towards a more fully automated and digitized future has been a rewarding experience for me. The goal of utilizing technology to make our companies and the industry*

*more efficient and thus to reduce costs in the long run is one shared by all the members of both SteerCos. Ruschlikon brings together a group of very talented and dedicated people to attain this goal, and I am certain Özhan will fit right in and become an asset to the group. I wish them continued success.”*

During his 18 year career at Converium/SCOR, Özhan Türkes has been in charge of improving processes and systems with regard to accounting, claims and reinsurance administration related topics. In parallel, Özhan has contributed to numerous global SCOR projects, ranging from system migrations to the improvement, change management and alignment of internal procedures. In 2018, Özhan became an active member of Ruschlikon eA&C BIG and has been contributing to the standards ever since.

*"Standardization is the first key of moving towards a fully digitized administration, leading ultimately to cost savings and quality improvements. I am very keen on moving our re-insurance industry to a fully digitized area. With Ruschlikon using ACORD standards, I am fully convinced that this is the right path to go. My focus is in enlarging the community of Ruschlikon members and show clear benefits to senders and carriers, not only on paper, but with real implementations".*

*"With Jonathan Beerman passing the baton to Özhan Türkes, I wanted to use the opportunity to thank Jonathan for his work in our ePlacing community. His vast experience and passion for the business have helped us to move forward and improve the first aspirations we had in 2018 into the concrete guides we have today...so a heartfelt "Thank You" and all the best for the next step of your journey.*

*At the same time, I am excited to welcome Özhan to the ePlacing Steering Committee – great to have you on board, Özhan!"*

- Theo Bachman, Ruschlikon ePlacing SteerCo Chair
